

Facts

Project: Magna installation

Client: A-max

Situation: All buildings have to be secured in order to allow the workers to do the maintenance and inspection of each part of the roof: take out the snow of the roof, maintenance etc.

Solution: Deltaplus provided a complete fall protection solution which includes Spiderline II (horizontal lifeline), Cameleon sliding device and harnesses.

We installed the different lifelines on roofs, to allow them to work safely. The fall protection system would provide a complete safe solution for maintenance employees.

- ⇒ 30 horizontal lifelines Spiderline
- ⇒ 11 vertical lifelines
- ⇒ Harnesses
- ⇒ Sliding device Cameleon
